Entwicklung und Produktion
für industrielle Elektronik

Datalink - The Engineering Company

Our team is our capital

We are big enough for
stability and continuity and
we are also small enough to
be quick and efficient.

Location:
Dübendorf, Zürich

Entwicklung und Produktion
für industrielle Elektronik

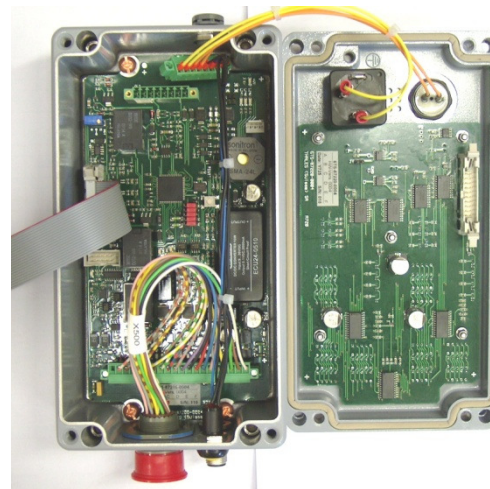

Datalink - The Engineering Company

All in One

**..with ONE
Contact**

Value Added

technical consultants
hardware- und software
engineering
re-design, CAD layout
designs and assemblies
electrical control panels
certification UL, EMV, ESD
prototyping
procurement
function test
fast repair
commissioning

Manufacturing Processes

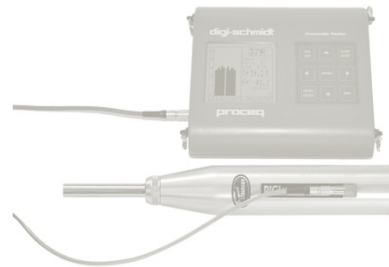

wiring cabinet
assembly work
test equipment
bespoke control panels and
control panel assembly
mechanic production
SMD, THD equip
software, firmwareload
ready to delivery

Entwicklung und Produktion
für industrielle Elektronik

Datalink - The Engineering Company

Custom Solution

Industry Electronics

E-mobility

Public Transport

Rough Electronics

Measuring, Control Electronics

Sensors

machine control, power
monitoring system

control electronics, cockpit

transport line trolleybus

electronically radiating antenna

control systems

various measurement phys. sizes

Entwicklung und Produktion

Datalink - The Engineering Company

Key data - Datalink AG

E²MS provider – all in One - since 1980

10-15 employees, engineers, electronics technician

Development:

from the idea up and ready for mass production

from the initial idea to the finished product –series-ready

production:

from 1 to 2000 pieces

Final assembly, functional testing and after-sales support

Industries:

public transport, rough electronics, measuring instruments, industrial electronics in general
